The diagram shows the layout of fuses and relays for the 2B White model. The top row contains fuses labeled 1 through 10. The bottom row contains fuses labeled 11 through 40. Relays are represented by larger rectangles: a single relay is located between fuses 1-4, and a larger assembly containing multiple relays is located between fuses 5-10.

The diagram shows the fuse and relay box for the front passenger compartment (2D). It contains 40 numbered slots arranged in two main sections. The left section (Slots 1-16) includes slots 11-16 and 26-31. The right section (Slots 17-40) includes slots 17-25 and 32-40. A 'White' label is positioned above the top row of slots.

The floor plan illustrates the layout of the 2F White floor. The rooms are arranged in two main sections. The left section contains rooms numbered 1 through 18. The right section contains rooms numbered 19 through 36. The plan shows various doorways, windows, and structural elements like columns and beams.
